The News.

Congress was not in session Saturday, having adjourned over till to-day. The Government has made a contract with a gentleman in Texas, for supplying \$25,000 worth of camels. The bill to supply the delicioncy for the fiscal year, ending June next, appropriates \$8,000,000 for the army and nearly \$1,500,000 to supply the deficiency in the revenue in the P. O. Department. It is said, that ALLSOr is in Washington to ascertain the views of the government, concerning his extradition, in case it is demanded.

The New York produce market, on Baturday, was active, and flour 5c, better. Other articles were firm and active. In our own market there was an active demand for good samples of wheat, and an upward tendency in prices. We give elsowhere this morning our weekly review of commercial and financial affairs.

Several vessels departed for the lower lakes laden with flour and grain.

CHAS. Brown, President of the Atlas Bank Boston, is doad. One of Little, Brown & Co.'s store-houses in

Cambridge, Mass., was destroyed by fire, Saturday. Loss \$80,000. The weather in all directions is fine.

THE REFORM TICKET.

Elsewhere in our columns will be found the proceedings of the Committee, appointed at the Albany Hall meeting, Friday night, to recommend suitable candidates, for City Officers, to be supported at the election to morrow. The ticket unanimously agreed upon by the Committee needs little to be said in its lavor, since it will commend itself to all good citizens. Mr. PRENress, who heads it, has lived in Milwaukee some twenty-one years, and is probably more familia, with the city business than any other man within the city limits. He has served the People in various offices of trust and importance, and always served them fulthfully and well. No better man for Mayor can be found in Milwaukee.

Of Mr. Comstons, it it enough to say, that his capacity and integrity, are known of all men and that he has heretofore filled the office of Comptroller to the entire acceptation of his fellow-citizens of all parties. Mr. Sonwarring is the present Treasurer of

our City, and was proposed for re-election on the sufficient ground, that he has made an excellont officer, and morite the suffenges, as he enjoys the confidence, of the People.

impulses, and great promise.

gested are DARIES SCHULTZ, TROMAS KROOM and Hiran Merrico. All these are old, wellknown and much respected citizens. Mr. SCHULTZ is the present Chief Engineer of the tment and out city never had a more faithful, zealous and efficient officer. He is, too, a practical mechanic and good business man. Mr. Kroon is a man of good sense, much experience and unsulled character, and Mr. MERRILL, like his two colleagues, possesses the requisites of honesty and capacity for the important office which he is called upon to fill.

These nominations, as already stated, were unanimously agreed upon by the Committee, and are submitted to the judgment of their fellow citizens in the full confidence that they will be found eminently worthy of a candid support at the polls to morrow. It only remains for the TAX PAYERS of our city to make an effort commensurate with the magnitude of the interests at stake, and our city will be REDERMED! Who will not aid in effecting her deliverance?

News from the North-The Straits Clear of lee-Lake Superior Open. Two mail carriors from the Sault, John Par-meleo and Autoine Piquette, arrived in this city last night, direct from the Sault. They bring entirely free from ice.

They felt the Sault on the morning of the 18th and reached the Straits on the morning of the 18th

and reached the Straits on the 23d, stopping at Mackinaw to change the mails, and passed over in a small boat the same night to Sheboygan (Duncan's). The weather was warm and there was no ice in sight. There was a little snow at the Sault when they left, but it has no doubt disappeared ore this Sault river was still bridged by ice ways transfer to the control that ice ways transfer. ice some twenty to twenty four inches thick but it had become quito rotten. Mail carriers from above froported that there was no ice of consequence from the boad of Sault River to Marquette. It is the opinion that boats leaving De-troit on the 12th would not experience the slight est difficulty either in Sault River or at any point

on Lake Superior.

Messrs. Parmelee and Piquette left Sheboygar on the morning of the 23d, and followed the beach to within eight miles of Prosque Isle, where they took the Pertage and came out at Thunder Bay. On their route they visited the schooner James Navagh, near Presque Islo. She is clear of ice, and appears to have sustained no damage whatever. She is lying on a boautiful sand beach and can be got off without much trouble.—Detroit Tribine April 2d.

greater portion is for Buffalo. But two or three vessels have as yet been chartered for other ports. Next week we shall commence the publication of our table of exports howing the shipments each week; also the gross an of produce shipped from the opening of navigation, and giving the names of places to which shipments have been made. Navigation, we may say, has only fairly com-menced, although the lakes have been free of ice for some time. Our exports and imports have been, as a matter of course, suite small for the past week. Yeseels are daily leaving, how, for the East, the first departures having been on Saturday for the lower takes, and within the next week or so, a vast amount of produce will be

The most important event of the past week, comme cially, is the opening of the Straits of Mackinaw, the pos-itive announcement of which we received by telegraph from Detroit on Widay evening, which has since been fully confirmed, and we are hourly expecting the arriva

of vessels from below.

The therough resumption of the shipping business has already produced a perceptible improvement in all branches of business in our city, and it is generally believed that the trade will be lively this Epring. In the early part and middle of the week, the produce markets generally throughout the country word in rather a droop ing condition; caused mainly by previous discouraging reports from abroad, but the news by the steamer Pereli showed the European marke's to be on the mend, which oduced a great improvement in the New York market, and of course caused a similar movement throughout the West, Thuysday, Friday and Saturday, the New York market was brightening up, and the telegraph reported an advacce on staple articles. Our own produce may at airn improved considerably, and notwithstanding tha the farmers have been so builty engaged putting in their erops, the receipts of grain, \$60, have more than doubled s will be seen by our table. Prices of wheat decline oward the middle of the week, but they came up rapidly owards the close, and we quote spring wheat at an ad vance of from 1 to 20 upon our last week's prices -

pary samples rate a trifle lower. In other grain, and flour, we have no material change to notice. Quite a number of vessais have been chartered during the week to true grain and flour to the Essiero markets, though vessel owners are rather reluctant in taking of offers of shippers. It is generally consided now, however, that freights will rule low, during the coming a ason and a great deal more will inguess is now exhibited to make con racts at the market prices than there was week or two ago. For the most part, thus far, charters have been taken at 10c for wheat, and 40c for flour to Buffalo. On Saturday we heard of but one charter being received,—that was by the schoener L. J. Farwell, for wheat and flour to Burnto at \$1,400—equal to about 9:

Winter wheat is about the same, though, perhaps, o di-

for wheat. The weather during the past week has been unusually fine for this season of the year, and the husbandmen generally are improving it. From all parts of the West, as far as we have heard, the reports of the growing when ore yery favorable for an abundant harvest. Our quotations this weak are as follows:

FLOOR-There have been but few large sales of flour yet and unchanged. Receipts for the week will amount to something between 4 and 5,000 bols, and the absoment are nearly the same. There is a moderate demand to supply home consumption, at our previous quotations which are \$8@0,85 for spring extras; country, and \$8.25 tale, which is 1c on wheat, and 25c on flour, lower than @8,50 for city; and for winter wheat flour \$8,75@4,25

The petition was laid upon the table. naturally engrosses public attention. We do not propose to multiply words, this morning, about the importance of every man's voting, and voting right. If the events of the past six months mayors of Louisville and Quebec, Ca., returning the developments of the last winter; and the present burthen of Taxation, are not sufficient, o thanks for copies of our city laws, and also return ing the compliments, which were also ordered on thomselves, to stimulate any Tax-payer, Proper ty-holder, and Resident of our city, who feels the slightest interest in its welfare, or who has from the sity Comptroller, stating that Mr. Mcthe smallest stake in its fortunes, to earnest, Conkley of N. T. had sent him a request to exunited, and determined efforts to elect GOOD MER to-morrow, it would be waste of time and labor for us to invoke their attendance at the polls, or appeal for energetle Acrien. The present con dition of our city affairs is the most powerful incentive that could be offered, to all good citi zens, to labor for RETAINGHMENT and REFORM ; and if they are insensible, or indifferent to that consideration, we know of none that can initu-

ence them in the least. We cannot tell, at this present writing, whothor the friends of Reform, even in this momentous crisis of our city affairs, will be able to unite on one ticket for city and ward officers. There is, unfortunately, much diversity of opinion touchiog the selection of candidates, and, as is not unfrequently the case, the prospect of success: makes the friends of each only the more tenn- Ald. Prentise thought if it was not absolutely cious of their opinions. If these conflicting views shall be harmonized, and a ticket formed which all will cordially support, we entertain no doubt that to-morrow's election will redeem our city from misrule. But even should it be found impossible to agree on one ticket, and the result be that two or three candidates are in the field Ald. Hedley hoped that the report would be so for the same office, it is still within the power of amended as to give both the Fire Departmen the Tax-Payzas to secure the success of the and school house bells independent of each othmejority of the REFORM candidatos. What, there- er, and that the putting up of the fire bell be forc, we have to urge to-day, is, that Event to less to the decision of the Ohief Engineer, and of the spectators had brought their breaking CAL VOTER in our city will make up his mind to presented the same in the form of an amend- with them; they had their leaves under their same in the form of an amend- arms, and their pipes in their mouths. The Defeat of the Administration. No: more significant event has occurred in our political history for many years past, than the detest of the Lecompton Swindle in the House of Representatives, on Thursday last .-This has been, from the outset, the favorite measure of the Administration, and never were the power and patronage of the Federal Government more unscrupulously used to influence the votes of members of Congress, than in this particular instance. In spite, however, of all corrupt appliances, and in deflance of the party screws, the Propers' House rejected the Lecompton Villain's and refused to force upon Kansas a Slave Constitution. That this vote faithfully religets the sentiments of the great majority of the Poople of the United States, no man doubts, or donies-Nor will it be disputed, that had every Northern momber of Congress, truly represented his constituents on this question, the insjerity against the Swindle would have been even more decisive than it was. The Administration, therefore stands condemned on the issue of its own raising. before the tribunal of the People, and by the voto of their Representatives.

Had this occurred to an English Ministry we well know what would have followed. The recent defeat of Lord Palmerston's Administration. on the so-called " conspiracy" bill, led to the immediate resignation of the entire Ministry, and the substitution of other gentlemen, holding difforent views, in their stead. This course was like in conformity with established usage, an in prompt and proper deference to public opinion. But how is it in our boasted Democratio Government, where the will of the People is assumed to be the controlling power of the State? Do we hear of Mr. Buchanan's Cabinet resigning, or Mr. BCCHANAN himself deferring to the popular sentiment, and abandoning the measure which has been so emphatically condemned?-Do we see our National Democratic Administra tration, who are so voluble in their professions of regard for the popular will, yielding to the decisive expression of that will, and surrendering the Lecompton Iniquity? Not at all.

So far from this, the Administration, defiant alika of the Popula and their Representatives. obstituately persist in the attempt to gag and for tor the free citizens of Kansas; and the Democratic majority in the Senate, under the lead of Mr. GREEN, the Administration champion, vote to porsist in the iniquitous policy which the House has rejected and the People condemned. That the House will stand firm, we cannot permit ourselves to doubt, and while the House so stands, with the People to back them up, the President, his Cabinet, and his liveried legions, in and out of Cougress, will find all their efforts to enslave Kausas, idle and unavailing. But what a commentary is it on the Democratic professions of the party in power—the party which claims to be the exclusive friend and guardian of the People's Rights-to see the Administration thus obsthuctely and defiantly strive to carry an obnoxious and outrageous measure against the expressed and undoubted will or THE Pro-

The Paris correspondent of the London Times gives the following account of the place off execution at dithe scene attendant upon the deed:

The population in this part of Paris Is dense; the long streets of Reuilly, Picpus, Characton, and last, not least, the famous fatilourg and street of St. Autoine, with "abeir many tributaries, converge to the Place de Ia Bestile on one side, and the Boulevard Besumarchials; with the petition of A. Now and then ful moment was approaching. Now and then a butcher's or a market gardener's cart, with its red lamp in front, rolled heavily along, and with difficulty made its way through the crowd. Many tone of voice, others jested and laughed, and Add. Prontiss, from the Committee on Gas

Nor Much of A Propert.—The Madison cor espondent of the Fend du Lac Union (a Lecompton organ) writes as follows of the Legislaive action on the Kansas resolve:

During last week Mr. Lovell introduced a sub stitute for the Kaness resolutions, such as to meet the ideas of the Douglass Democrats. The resolution affecting Lecompton particularly passed by a vote of 57 to 16. The reason of this large vote was that the Topeka and Lecompton Constitutions were classed in the same category. The resolution is relarred to a Committee which will strike out Topekii, and this will change the vote very considerably. They will not be finally passed until Licompton gots through Congress. The resolutions were "finally passed" last week, and Lecompton is not yet, nor likely to

get, "through Congress," DRATH OF THE ORLY SON OF EX-MAYOR WENT-FORTH, The Albany Evening Transcript of last Tuesday, says: "We regret to announce the death of an only son of Hon, John Wentworth, of Chicago - a bright promising boy, five months of age -at the residence of Mr. Westworth's father-in-law, Riley Loomis, Esq. in Troy, on Friday evoning. The death was produced by congestion of the brain and was very audden.

Publishers Dally Sentinel, Milwaukee Wis. Border Ruffianism in Minnesota. We find the following in the St. Paul Times of the 30th ult:

On the morning of the 24th of March, the or fice of the St. Cloud Visitor was broken open, the press demolished, and the type and contents f the office thrown into the street and the river of the office thrown into the street and the river. So high handed an outrage never before disgraced our community or Territory. Our citizens, indignant at this attempt to satisfe free speech and to put down an independent press, issued a call for a meeting to be held at the Steams House on the ensuing evening, and invited the editor to address them. Although but a few hours' notice of the meeting had been given, yet so large and respectable an audience was perhaps never before convened in the Territory north of St. Anthony. Mearly the entire population of the thouy. Mearly the entire population of the town-men, women and children, turned out en masse, while large delegations were present from Sank Rapids and the surrounding country. The large and commodious rooms of the Steams House were filled to sufficiation, and the windows blocksded from without by those unable to gain

ng. Mr. Swisshelm, the editor of the Visitor then road an address, from which it appears that the destruction of the Visitor office was instigated by Gan. Lowele and James Shepley, two beauti-tal representatives of sham Democracy, who had taken offence at some articles on the subject of Shavery from Mrs. S.'s caustle pen. The following letter to Gen. Lowrie's own hand writing was found in the office:
Sr. Clove, March 25, '68.

Editor of the Visitor.

The citizens of St. Otond have determined to about the nulsance of which you have made the Visitor a striking specimen.

They have decided that it is fit only for the inmates of brothels, and you seem to have had some experience of the tastes of such persons.
You will never have the opportunity to repeat
the offunce in this town, without paying a more

serious penalty than you do now.

By order of the committee of Vigilance.

Mrs. S. says:

The threat of further violence you can all appreciate. You see my sin, (the speaker drew out a pen and held it up) and this is my weapen, out a pen and held it up) and this is my weapon, These, my opponents, are honorable men, and it appears they cannot muster quite force enough to manege so formidable a monster. It has been decided that the pulpit and the forum and the press are not sufficient to kill the dragon, and now they are ready to resort to bowle knives and Colt's revolvers. I move they call out the volunteer companies, organized to fight the Indians; and send on for Gen. Scott, with a detachment of "horse, foot and dragoons."

It is apprehended that my life will be actually offered up a sacrifice to propilitate the spirit of offered up a sacrifice to propilitate the spiris of that glorious institution of women whipping, which a clique of demagogues are straining every nerve to extend ever our native country, and perpetuate to remotest ages.

nerve to extend over our native country, and perpetuate to remotest ages.

If you think, gentlemen, that it will be woil for the honor of St. Cloud, that I should die here, and in this cause, God's will be done! my will is made, my pledge will be reteemed, my vow tuitilled, and my lite given in the cause of God's suttering poor.

Resolutions were adopted commenting in severest terms upon the Rufflans, and declared the Visitor should be sustained. Lowrio had offered to support the paper if it would support the Buchanan Administration.

How to Gar Religion .- At one of the prayer sectings at Burton's Theatre, Henry Ward

He was strongly impressed with the idea that there should not be occasion for so much indi-vidual labor as there is. He could conceive the vidual labor as there is. Ho could conceive the accessity of it in a heathen county, where the Gospol is preclaimed for the first time; but here, where the truths of Christianity have been so long and repeatedly taught—where we have heard little else—it seemed to him men did not need, in this respect, to go through with another training. He believed there was not a man present incapable of being a Christian before stundows. andown.

But there are many who key out a plan for be

Her thore are many who my class class plan for beeing converted, by supposing that they must at first be serious for two or three days, then have a week of boding anxious, and then finally go through Hell Gate and become a Christian. It was, he thought, a shame for a man to lay out such a plan. A man should take his resoulution, and set upon it at once.

There was an idea that unless there was some localed in the cases a deargen, or a elegeryman, a

leader in the case, a deacon or a clergyman, a man's conversion could not be complete; but he belloved that Christianty was between a man's heart and his God, and that he needed not these appliances. There was not a man in the house, who, if he chose, could not go home that night, and to the anearment of his wife and children, ask God's blessing upon his dinner in a Christian spirit for the first time.

Your stomach is

RAW AND INFLAMED,
your food distresses you, and you can only take certain
kinds, and even of that your system does not get half the
nourishment it contains, as the acrisonous fattle of the
canker eats it up; then your complexion loses its bloom,
and becomes sallow or greenish, and your best day is
gone. For want of nourishment your yoursen becomes
tooss and dabby, and the fibres of your body become relaxed. Then follow a train of diseases which the Keilon
Discovery is peculiarly admitted. Paipitation of the heart, pain in the side, washness of the spine and small of the back, pain of the hip-joint when you retire, bregularity of the bowels, and also, that most exerciciating of diseases the

How many thousands or poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish te impress on your mind that good old provers, "An owner of prevention is better than a bound of cure." In the MEDICAL DISCOVERY
